## Mission and Vision

Berkley Charter School is committed to *Learning For All, Whatever It Takes!* We provide an optimal learning environment that emphasizes researched based effective practices, time on task, and an integrated relevant curriculum.

Learning for all includes ensuring all students and teachers have the resources necessary to achieve optimal learning, as well as providing a well trained, caring staff that utilizes data to drive instructional practices. It is our goal for every child to perform at or above grade level in all academic areas.

## KAGAN Cooperative Learning

Through the use of Kagan Cooperative Learning, students learn more, and they enjoy coming to school more. Discipline issues are reduced and social skills and character virtues are increased. The Kagan structures encourage every student to be actively engaged in learning. While students are encouraged to learn cooperatively, they are required to have individual accountability. All teachers at Berkley participate in extensive, ongoing professional development in Kagan Cooperative Learning. This instructional approach is deeply embedded into our everyday curriculum.

### TECHNOLOGY

Every classroom utilizes the latest technology including SMART Boards, LCD projectors, document cameras. The school houses three full size computer labs with a total of 70 student work stations. Each classroom has a minimum of eight student work stations. Every teacher is assigned a laptop and an iPad. Every classroom has access to iPads.
