

Reading:

Berkley Charter School has the program i-Ready reading that our students are familiar with and the students know their username and passwords. This summer, please log on each **week for a minimum of 45 minutes** to complete reading lessons at <https://login.i-ready.com> . We would like your pass rate to be 80% or higher.

Math:

The purpose of the summer math work is to have students keep their minds engaged on math skills so they won't fall behind over the summer. This summer, please log on each **week for a minimum of 45 minutes** to complete math lessons at <https://login.i-ready.com> . We would like your pass rate to be 80% or higher. All current students already know their username and passwords.

New students to Berkley will not have access to the i-ready platform for this summer. If you are new to Berkley, please use this summer to make sure that you have your multiplication facts memorized from 0-12. We look forward to meeting you!

Multiplication and division facts should be memorized over the summer. Addition and Subtraction facts should be refreshed over summer as well.

Practice your facts for a minimum of 15 minutes per week.

Practice can be:

- flashcards
- apps
- websites

Fact Practice Websites:

www.reflexmath.com

www.multiplication.com

<https://www.funbrain.com/math-zone>

<https://www.abcya.com/grades/4>

www.prodigy.com

Fact Practice Apps: Factor Samurai, Monster Math: Kids Fun Games, My Math Flash Card, Math Puppy, Multiplying Acorns HD

Enjoy your summer! We look forward to a great year in 4th grade!
