Furthering Your Child's Educational Journey...

Once your child has completed their preschool journey in Berkley's private prek program, Berkley Charter School offers kindergarten through 5th grade which your child may attend.

If you have any other questions about our preschool, please check our school's website or contact the office.

Berkley Charter School's goal is to provide a safe and happy learning environment for your child. Our staff is friendly, educated in early childhood development, and all teachers are certified in first aid and CPR.

Our teachers create a learning environment through play which is essential for development of appropriate social interaction. In our classrooms, we follow a 1:15 teacher/student ratio in our prek3 classes and a 2:20 or 1:11 teacher/student ratio in prek4.

Our school is an advanced technology school equipped with iPads for students to use, interactive white boards in all classes and access to computer labs. Our preschool incorporates outdoor play into the students' day as well.

Our teachers' main goals for your children are to keep them safe, help them learn, and to have fun!

SPECIAL ACTIVITIES

Berkley offers special activities for our children to attend such as Spanish, media center, physical education, art, and music classes.

LUNCH INFORMATION

Students are offered a hot meal each day. Prices vary from year to year. Go to our school's website for more information.
